

How to play

HANGMAN

For 2 players

Players take turns guessing a word letter by letter. The object of the game is to guess all the letters of the word before “Hangman” is completely drawn.

Player 1: Decide on a word and don't tell the other player what the word is. Draw the gallows and draw a dashed line for each letter in the word underneath it.

Player 2: Guess a single letter that might be in the word.

Player 1: If the guessed letter is in the word, write the letter above the dashed lines where the letter appears in the word.

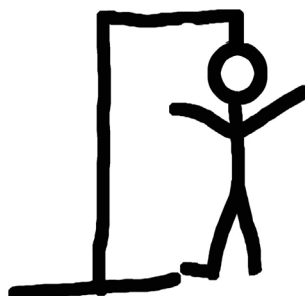

If the letter is NOT in the word, draw the first part of the Hangman. Write the letter above the drawing so that it is not guessed again by mistake.

Player 2: Choose another letter.

Player 1: Either write the letter above the appropriate dashed lines, or draw the next part of the Hangman. Remember to write incorrect letters above the drawing.

Players continue until either the word is completely spelled out or the drawing of the Hangman is finished.
